

DUAL Ports

Meet the speakers

Port of Oostende

Interreg
North Sea Region
DUAL Ports

European Regional Development Fund

DUAL Ports is co-funded by the North Sea Region Programme 2014-2020; Eco-innovation priority. www.northsearegion.eu/dual-ports J-No: 38-2-7-15

What is DUAL Ports?

DUAL Ports aims to decarbonise Regional Entrepreneurial Ports (REPs) resources through a shared eco-innovation port programme that minimises their environmental footprint.

The objective of DUAL Ports is

- reducing the environmental footprint of regional entrepreneurial ports
- improving the sustainability of port operational and administration resources
- promoting responsible growth and supporting eco-innovation oriented development

The project will ultimately enhance ports' energy efficiency and performance, facilitating low carbonization at reduced cost, with added value in terms of knowledge and investment.

Facts about DUAL Ports:

- Duration: 3 years
- Budget: 5.2 mio. euro
- The participating ports and local authorities are expected to implement initiatives that will reduce carbon emission
- The Port of Oostende is Project Leader of DUAL Ports
- Business Vordingborg is responsible for the communication of the results of the project

Project partners

- Port of Oostende
- Business Vordingborg
- Port of Vordingborg
- Municipality of Guldborgsund
