

## CANAPE Spring Newsletter - Conversations, and Save the Dates

Spring has finally sprung, and nature is coming back to life across the CANAPE sites. Despite the late cold blast, we are looking forward to our summer of tending our crops, and pushing ahead with construction on our sites that still need their development.

### SAVE THE DATE

The CANAPE project is teaming up with our friends in Carbon Connects to host a 3 day conference titled "Sustainable Peatlands: A win for all" this October. Please mark the date in your diaries, and watch the space for the registration email.

---

### A small favour

We would like for our conference to be a hybrid event, with an inperson option and an online option. We are hopeful that vaccination rates will make this possible by October. However, this new world makes planning difficult. Please can you take our [1 minute 1 question anonymous survey](#) about how you feel about attending in person events. This survey does not collect any personal information.

### CANAPE Chats

After a year of not being able to have face to face conversations, we have launched a new way to present our project. The CANAPE chats will be a series of short videos with conversations about our project. See the first one and subscribe to your Youtube [here](#).

Thank you for taking the time to read our newsletter. If you would like any

further information about the project, please don't hesitate to contact
