

# Developing the Hydrogen Transport Economy for the North Sea Region: HyTrEc2

Over the past six years Interreg HyTrEc2 Partners from Aberdeen City Council, Aberdeenshire Council, atene KOM, CENEX, City of Groningen, Province of Drenthe, Research Institutes of Sweden and The Arctic University of Norway have been working together to create the right conditions for a hydrogen vehicle market to develop in our regions.

We have delivered and tested a range of innovative hydrogen vehicles, developed hydrogen production and refuelling facilities, mapped the hydrogen supply chain and created training opportunities for hydrogen.
