

Living Lab Event

Syd Energi – DK

Strategic objectives

The SE company is one of Denmark's largest modern energy and telecommunications companies in Denmark. With high environmental ambitions and engagement in innovation, the SE company focus on long-term and societal challenges. The aim of the internal initiatives is to create more diversity and strengthen the company's sustainability. The strategic external initiatives aim at creating more diversity by focusing on disruptive business models and creating societal impact by collaborating and supporting innovative entrepreneurship.

Our challenges

The SE company is now looking for innovative companies, ideas, technologies and methodologies in order to identify and form new partnerships.

– Join us, and Meet-the-Buyer at our Living Lab Event at

Syd Energi in Esbjerg, Denmark the 7th of November 2018.
